

A REPORT ON TWO DAY NATIONAL CONFERENCE ON- NEW HORIZONS IN APPLIED PLANT SCIENCES RESEARCH AND ITS IMPACT ON HUMAN WELFARE

The National conference "**Two day National Conference on- New Horizons in Applied Plant Sciences Research and Its impact on Human Welfare**" had organized on 30th & 31st October, 2018 in collaboration with Anwarul Uloom College, New Mallepally, Hyderabad. The National Conference had 20 different themes on Applied Plant Sciences. We received about 80 abstracts out of which 60 were selected. The other abstracts were not accepted by the screening committee as they were not upto the standards and not related to the themes. The screening committee includes Dr. Zehra Moiz Siddiqui from University College of Science, Saifabad, Dr. Sadia Fatima from Anwarul Uloom College and other staff members. The conference covered about 17 themes out of the 20 themes. There were three themes which were not covered in the conference, they are-Bioinformatics, Anatomy and Applied Genetics. These three themes could be included in the conference, through abstracts and full length papers. In the field of Nanotechnology, Green Synthesis of Nanotechnology abstracts were there. Nanotechnology of Food and Medicine was given. Another abstract was given by Mrs. Asha Kumari from IFB on Biofabrication of Silver Nanoparticles for Band-aids and Wound Treatments. Still further intensive research is required in the field of Nanotechnology. In the field of Pharmacology, Milk Adulteration had been studied. But in Pharmacology invention of new drugs ICT value is not done in research. The preface written by the editors, covers almost all the themes of the conference. Abstracts and papers on Bioinformatics, Anatomy and Applied Genetics can also be added, which gives scope for further development in the field of Applied Plant Sciences. Overall, the two day National Conference was a great success because students learnt how to present papers. Research Scholars found new pathways to carry out Research activities, by observing and learning from the scientists of great reputed Institutions like, IIRR, CIMAP, NIPER, PJTSAU, ICAR and IFB. Research Scholars were inspired to go for further research, which is a scope for new innovations.

Glimpses of the National Conference at RJP Hall, Anwarul Uloom College

Welcome of dignitaries

Release of Technical bulletins during National Conference

Inaugural address by Chief Guest Shri P. Raghuvver, IFS, PCCF (IT), Telangana State Forest Department

Introductory speech by Guest of Honour Prof. Munawwar Hussain Kazmi, Officiating Director, CRIUM
